DPVR AIO GO DL:

https://drive.google.com/file/d/1ezR7jvI5a1KPg6scNO89QPuiciz2AAZV/view?usp=share_link

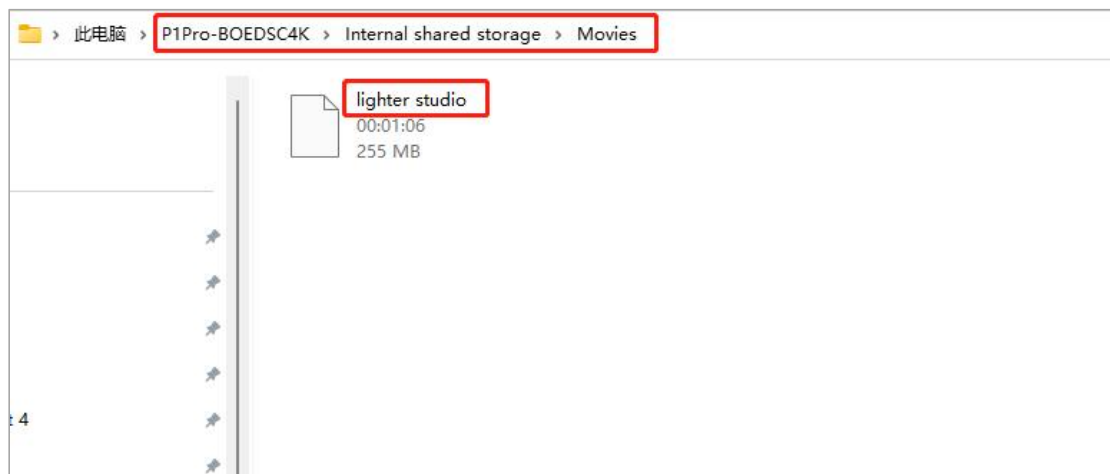

2. Install and run **DPVR AIO GO**
3. Connect the **P1Pro 4K** to the PC through the data cable, and confirm that the device is recognized in **DPVR AIO GO**

- Click the application installation in **DPVR AIO GO**, and drag **Video Autoplay Launcher.apk** into the window to install

- Name the video that needs to be played automatically as **lighter studio.mp4**, and put it in the path **This PC\P1Pro-BOEDSC4K\Internal shared storage\Movies**

- Long press the power button to shut down, and it will take effect after restarting.

- If you need to remove the Video Autoplay Launcher, please use the factory reset function in **DPVR AIO GO**.
